CUTTING-EDGE COMPOSITE MATERIAL

All-new Professional Grade raw carbon composite material is woven in Giant's own composite factory to produce an even lighter, stiffer frameset than the previous generation. This material also uses Carbon Nanotube Technology resin to improve impact resistance.

LASER CUTTING

Whereas previous generations of TCR frames relied on machine-stamped composite swatches, new laser technology is now used to produce ultra-precise cuts. This translates into smaller, more exacting swatches, which results in lighter overall weight of the finished structure.

ADVANCED ROBOTIC LAYUP ASSEMBLY

Giant Manufacturing invested in a new robotic assembly process for the critically weight conscious areas of the frame and fork. Ultra-precise placement of 150 smaller, individual composite swatches results in lighter overall frame and fork weights.

FINISHING TECH

Our new ThinLine paint process on the TCR Advanced SL 0 Disc uses a minimum quantity of paint to save up to 50 grams compared to a traditional seven-layer paint application. In addition, a proprietary 3M adhesive protector is used to reinforce the integrated seatpost (ISP) when the saddle clamp is installed, saving more weight without sacrificing security.

OUR MISSION

騎向淨好未來

STRATEGY PILLARS

創新低碳生活

我們優先在生產製造中減少碳排放量，同時挹注研發創新技術，以實際作為重塑與供應夥伴的合作方式，減少對下個世代的环境影響。

轉型價值循環

我們正在從供應商到終端消費者的價值鏈中積極尋找更永續的材料及技術，以實踐正向的變革。

促進多元共融

我們正視包容與多元的社會，積極透過自行車的特性推動社群間的包容性，促進職場正向互動與合作，讓多元想法能彼此豐饒激盪。

COMBAT CLIMATE CHANGE

We are on the brink of climate catastrophe. Climate change is not just about environmental degradation but the irreversible, adverse impacts on people's livelihoods and economic well-being.

How might we reduce carbon emissions in our manufacturing ecosystem to combat climate change?

REDUCE RESOURCE INEFFICIENCIES

The resources on our shared planet are finite, yet we continue to deplete them. Wasteful ways of production and consumption are no longer an option.

How might we reduce resource inefficiencies in our value chain to impact our consumers' everyday lives?

BREAK DOWN SOCIAL BARRIERS

Despite our increasingly globalized world, there has been a trend towards polarization and division. Inequality and social injustice remain in our communities.

How might we break down social barriers to create a more inclusive environment, internally and for our consumers?
